Washington, DC 20515

Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Danville Wastewater Treatment Plant Improvements Project in Fiscal Year 2027. The entity to receive funding for this project is the City of Danville, located at 387 E. Lexington Avenue, Danville, Kentucky, 40422.

The project is an appropriate use of taxpayer funds because it would provide additional treatment capacity and other improvements to continue to meet KPDES Permit Limits and comply with Kentucky Division of Water (KDOW) regulations regarding influent flow. The proposed capacity improvements would include mechanical screening facilities, a new oxidation ditch for extended aeration treatment, two new secondary clarifiers, sludge holding tanks, flow splitter, electrical connections, and associated piping.

This project has a federal nexus because it is for the purposes authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that neither I nor anyone in my immediate family has any financial interest in this project.

Sincerely,

James Comer
Member of Congress
