Dear Representative Comer:

This letter of support is written on behalf of the Webster County Fiscal Court and their request for the Webster County Highway 670 Economic Development Project funding. If awarded, this funding would provide for the purchase of three parcels of land and the extension of the water and sewer service to the Webster County Industrial Park.

Funding for the above request is imperative for the industrial park's success and growth. As you know, growth can bring much needed jobs and provide an economic boost for our county and the area. With this expansion, it would be our hope to attract more manufacturing businesses to the site.

As the state representative of Webster County, I am always pleased to see progress in our area and am happy to lend my support for this initiative. Your consideration and attention to this matter is appreciated. If I can be of any assistance, please feel free to contact me.

Sincerely,
