RE: Letter of Support for Community Project Fund

Dear Congressman Comer,

On behalf of the City of Madisonville, I am pleased to express our strong support for the West Noel Interceptor Phase III project application to the FY26 Community Project Funding. Phase III rehabilitation consists of the construction of a new 4,000 linear foot 12-inch force main from the existing Hospital Lift Station to the end of the Noel Avenue Sewer Interceptor west of Pride Avenue and the construction of a new 750 linear foot 12-inch gravity sewer line from the Railroad Lift Station to the sewer interceptor leading to the Hospital Lift Station.

The existing Hospital Lift Station pumps and equipment are proposed to be re-used without any necessary improvements. The flow from Ahlstrom (nearby industry) combined with Baptist Health Hospital, and some flow from Martin Mall is currently pumped and flows to the East Side Lift Station. Phase 3 will install a new force main to divert all flow from the existing Hospital and Railroad Lift Stations to the Noel Avenue Sewer Interceptor and reduce flow to the East Side Lift Station, providing sewer capacity in a growing area of the City of Madisonville along Interstate 69. This project will dramatically reduce the flow to Eastside Lift station and provide much needed expansion for the City of Hanson.

We appreciate the Appropriation Committee's consideration of our request and strongly urge your support for this infrastructure investment. If further information is needed, please do not hesitate to contact my office at 502-564-8100 or by email at robby.mills@kylegislature.gov.

Sincerely,

The Honorable James Comer
United States House of Representatives
2410 Rayburn House Office Building
Washington, D.C. 20515

Dear Congressman Comer:

As state representative for this region, I strongly support Madisonville's application for FY26 Community Project Funding for the West Noel Interceptor Phase III. This vital infrastructure project includes the construction of new force and gravity sewer lines to redirect flow from the Hospital and Railroad Lift Stations, easing pressure on the East Side Lift Station.

By improving sewer capacity along the Interstate 69 corridor and supporting growth in both Madisonville and Hanson, this project represents a smart investment in the future of our region.

I appreciate your consideration of this request. Please feel free to contact my office for any additional information.

Sincerely,

Wade Williams
State Representative

RE: Letter of Support for Community Project Funding

Dear Congressman Comer,

On behalf of the Madisonville-Hopkins County Economic Development Corporation (MHCEDC), I am pleased to express my strong support for the City of Madisonville's West Noel Interceptor Phase III project application to the FY26 Community Project Funding. Phase III rehabilitation consists of the construction of a new 4,000 linear foot 12-inch force main from the existing Hospital Lift Station to the end of the Noel Avenue Sewer Interceptor west of Pride Avenue and the construction of a new 750 linear foot 12-inch gravity sewer line from the Railroad Lift Station to the sewer interceptor leading to the Hospital Lift Station.

The existing Hospital Lift Station pumps and equipment are proposed to be re-used without any necessary improvements. The flow from Ahlstrom (nearby industry) combined with Baptist Health Hospital, and some flow from Martin Mall is currently pumped and flows to the East Side Lift Station. Phase 3 will install a new force main to divert all flow from the existing Hospital and Railroad Lift Stations to the Noel Avenue Sewer Interceptor and reduce flow to the East Side Lift Station, providing sewer capacity in a growing area of the City of Madisonville along Interstate 69. This project will dramatically reduce the flow to Eastside Lift station and provide much needed expansion for the City of Hanson.

MHCEDC fully supports this initiative and urges the Appropriations Committee to consider this vital infrastructure investment. If additional information is needed, please do not hesitate to contact my office at 270-821-1939 or by email at wwilliams@westcentralky.com.

Sincerely,

Wade Williams
